1.3.1 VISION AND VALUES

OUR VISION

Through its vision and subsequent actions, SBM Offshore helps societies and other stakeholders to accomplish the energy transition. **Safe, sustainable and affordable energy for generations to come** will require renewable energy and cleaner forms of fossil energy – provided by leading companies with the right ethics. SBM Offshore is

committed to this, by addressing climate change without interrupting the essential supply of energy needed to support societies. The contribution and participation of global energy companies and service providers such as SBM Offshore are essential to achieve a responsible energy transition. Many people, especially in less developed economies, depend on the relevant experience and resources of those companies. This is where SBM Offshore's products can play a role. SBM Offshore is partnering with others for this purpose, **sharing experience to make it happen.**

SBM Offshore believes the oceans will provide the world with safe, sustainable and affordable energy for generations to come.

We share our experience to make it happen.

1.3.2 AMBITION AND STRATEGY

SBM Offshore has developed its ambition and a strategy framework by developing a strong understanding of mega trends, with associated scenario-planning and detailed strategies. Combined with feedback from stakeholders, as defined in 1.2.2, SBM Offshore's strategy ensures stakeholder needs are addressed.

SBM Offshore's ambition between now and 2030 is to grow and create long-term value for its stakeholders. We refer to this as Ambition 2030. In order to do so, it has set targets and indicators in three main areas: grow free cashflow over the period, ensure a steady flow of new contracts within SBM Offshore's core business (2+ FPSOs a year) and position SBM Offshore in the gas and renewables market (to achieve >2 gigawatt (GW) floating offshore wind installed or under construction by 2030).

In line with its vision and ambition, SBM Offshore's strategy is based on three strategic pillars: Optimize, Transform and Innovate:

- Optimize – Improving competitiveness and delivering the backlog, with HSSE and process safety as main priorities; ensuring the highest standards of compliance, operational excellence and quality; focusing on business continuity and on cash generation and preservation.
- Transform – Investing in transformation programs and unlocking value for SBM Offshore's stakeholders: Fast4Ward®, Digital Transformation, Sustainability and emissionZERO®.
- Innovate – Preparing for the future, investing in technology and innovation, and focusing on the energy transition.

SBM Offshore manages its performance through a balanced scorecard framework.
