4.3.3 REVENUE

The Company's revenue mainly originates from construction contracts and lease and operate contracts. Revenue originating from construction contracts is presented in the Turnkey segment while revenue from lease and operate contracts is presented in the Lease and Operate segment. Around 51% of the Company's 2021 lease and operate revenue is made of charter rates related to lease contracts while the remaining amount originates from operating contracts. The Company recognizes most of its revenue (i.e. more than 95%) over time.

The Company's policy regarding revenue recognition is described in further detail in note 4.2.7 B. Critical Accounting Policies – (d) Revenue. For the disaggregation of total revenue by country and by segment, please refer to Geographical Information under note 4.3.2 Operating Segments and Directional Reporting .

The Company's construction contracts can last for multiple years depending on the type of product, scope and complexity of the project while the Company's Lease and Operate contracts are generally multiple-year contracts. As a result, the Company has (partially) outstanding performance obligations to its clients (unsatisfied performance obligations) at December 31, 2021. These unsatisfied performance obligations relate to:

- Ongoing construction contracts, including the construction of vessels under finance leases that still need to be completed;
- Ongoing multiple-year operating contracts. Note that for this specific disclosure on unsatisfied performance obligations, the lease component of the Lease and Operate contracts is excluded (this component being described in further detail in notes 4.3.13 Property, Plant and Equipment and 4.3.15 Finance Lease Receivables). As noted, some contracts include (performance) bonuses when earned or penalties incurred under the Company's Lease and Operate contracts. The amount of performance-related payments for 2021 was US\$101 million (2020: US\$68 million).
