

# ANNUAL REPORT 2021

The maximum exposure to credit risk at the reporting date is the carrying amount of the finance lease receivables taking into account the risk of recoverability. The Company performed an assessment, which concluded that the credit risk for these receivables has not increased significantly since the initial recognition. The Company does not hold any collateral as security.

#### Purchase and termination options

The finance lease contracts of *FPSO Aseng* and *Liza Destiny* (FPSO), where the Company is the lessor, include call options for the client to purchase the underlying asset or to terminate the contract early. If the client would have exercised the purchase option for *FPSO Aseng* as of December 31, 2021 this would have resulted in a gain for the Company, while the exercise of the early termination option under which the Company would retain the vessel, would have resulted in a near breakeven result. If the client would have exercised the purchase option for *Liza Destiny* (FPSO) as of December 31, 2021 this would have resulted in a near breakeven result for the Company while the exercise of the early termination option under which the Company would retain the vessel would have resulted in a gain.

The finance lease contract of *FPSO Espirito Santo* includes a call option for the client to terminate the contract early without obtaining the underlying asset. The exercise of the early termination option would have resulted in a non-significant loss for the Company as of December 31, 2021.

The finance lease contracts of *Liza Unity* (FPSO), *Prosperity* (FPSO) (all under construction as per December 31, 2021) contain options for the client to purchase the underlying asset or terminate the contract early. These options are exercisable at any time starting from the delivery date of the vessel.
